Description: The best hunters are obsessed, mercilessly and relentlessly stalking their prey...

Beau Forester

Brynn Lovelace, a deliciously curvy backpacker and yoga influencer, runs towards trouble ... trouble that lands her in the woods alone with me—a feral, ex-military mountain man-turned-gray man with an equally ambiguous moral code.

Danger swirls around the scarlet-haired beauty, heightened by my desperate and unquenchable thirst for her.

Yearning skyrockets, intensified by my assignment to shadow her for one week, protecting her at all costs.

But nothing prepares me when her eyes answer the call of my soul, beckoning me ... no, challenging me to claim her.

She's forbidden fruit. Off-limits in every way. But I've never flinched at breaking the rules.

As tensions escalate, passions explode, and twisted plans envisioned in the dark come to light, I'm determined to protect Brynn, no matter the sacrifice. But, ultimately, she must make the choice...
